

To whom it may concern:

We recently moved to new offices at The Oval Building in Ballsbridge. We commissioned Callnet Communications to handle the installation of a new phone and telecommunications system as part of the fitout of the new premises. Not only did Callnet deliver on time but we experienced no teething problems of any kind with the new system which worked perfectly from day one and continues to do so ten months later.

I can unreservedly recommend Callnet and please feel free to contact the undersigned should you have any queries.

Best regards
